Zingaro

Zingaro

Come aboard *Zingaro* and discover pure perfection in beauty and performance.

The irresistible appeal of classic luxury and supreme sailing performance beckons you to this newly christened collaboration of designer Sparkman & Stephens and Derecktor Shipyards.

Embrace yourself in distinct shipboard luxury and submerge land-borne worries in restful relaxation. Experience the freedom to go where you want, when you want. Lazily explore tropical islands or set off on an exhilarating passage to windward with the strength and grace of *Zingaro* beneath your feet.

The integration of her 128' carbon spar, optimal wetted surface, abundant waterline, lightweight aluminum construction, and full complement of race-cut sails, give *Zingaro* the muscle to easily reach 13 knots even in the most moderate winds. A hydraulic-furling carbon boom helps to mini-

mize weight aloft, while hydraulic sheets across a simple deck plan combine with a convenient dual helm and center navigation pedestal to maximize ease of handling and safety.

As her guest, *Zingaro* tailors everything to your

specific needs and desires to assure the ultimate vacation experience. Rise early, or sleep late. Race with the wind every day, or linger in pristine bays. Appease your playful side with our plentiful array of water toys, or indulge the romantic in you with a beach edge picnic.

Below decks is a multiple zone, climate controlled environment where the accent once again is on space and comfort. Classic teak paneling sets the tone throughout. Enter from the decks into a raised pilothouse with navigation station and joystick steering on the starboard side, opposite an ample lounge encircling a leafed, teak dining table to port with electronically controlled height adjustment.

Zingaro offers an abundance of sprawling deck to bask in a warm sun, while her bimini top and fold down wind-screens shade an expansive double cockpit for refuge from the elements. Enjoy matching settees and tables for on-deck dining or kickback lounging. Refreshing relief of a cold beverage is but an arm's length away in a table-mounted day fridge.

As many as 8 of our guests can dine or relax in exquisite comfort and enjoy a panorama of 360° views behind the privacy of tinted windows. Feast on excellent international cuisine prepared specially to your personal requests by our gourmet chef.

Zingaro is equipped with the most state-of-the-art navigation and communications systems of today's yachting industry. From a multiple display B&G, redundant radar, digital charts and computer/GPS aided navigation, to maximum range satellite communications capable of voice, fax, and data anywhere, the design is for complete safety, and convenience. For communications closer to home, *Zingaro* features an on-board telephone system throughout.

Step down into a full beam saloon finely appointed with Italian leather lounge and settee and graced by 17th century masterpieces. Curl up with a good book, or watch your favorite DVD on our 41" flat screen, plasma TV that retracts conveniently into a custom wall cabinet when not in use.

Zingaro's extensive entertainment center boasts Bose "surround sound" both above and below decks, and a multi-system TV/DVD/VCR/CD supported by a video library of over 100 titles.

Access from the main salon aft into the guest quarters is through a passageway cabin featuring

a general-use day head and two collapsible bunks for children or impromptu guests. But the surprise discovery here is the exercise treadmill concealed below the teak floorboards. Burn off excess energy or calories in our "mini gym" and occupy your attention with a DVD movie from a flat screen TV in your easy view.

The master stateroom defines *Zingaro's* theme of boundless space and comfort. A queen size bed is complemented by an adjoining make-up counter/desk, and ample cedar-lined closets, drawers, and lockers throughout. A built-in TV/VCR/CD entertains in complete privacy, while a walk-in shower, head and European styled bidet cater to all your creature comforts.

Continue aft to two guest staterooms, both with twin bed accommodations and individual en-suite head and shower. For more flexible accommodations, the twin beds of the starboard guest room easily convert into a cozy double berth.
